

School Safety Club:

Project team will visit 150 schools and interact with school administration and a team of teachers including maintenance staff will be identified to form a *disaster management committee* in each school. Questionnaire will be given to team to fill up information to identify the major hazard, which may become disaster in a particular time.

The committee would be involved into the formation of various sub committee/heads and task forces based on Search & Rescue, First aid, Fire fighting etc.

The committee would take up responsibility of carrying out Disaster Preparedness and Risk Awareness activities in and on behalf of the School. This would be called

“SCHOOL SAFETY CLUB”
