## Ashray – India Flood Response 2019

Restoring lives, homes, schools with dignity

This year again, devastating floods have struck several states leading to heavy losses of lives and property – over 17 million lives have been impacted.

SEEDS is promptly reaching out to the affected communities in key states of Maharashtra, Karnataka, Kerala, Assam and Bihar, with safe drinking water, hygiene kits, medical camps, school education materials and homes that can help families bounce back from their state of despair.

With our 25 years of experiences, we believe in starting recovery efforts alongside immediate relief right from the beginning. Restoring homes, schools and health centres helps build long-term security and resilience among people, and our support to them lasts far longer than their plight stays in the headlines.

**Join hands with SEEDS as we reach out to the worst affected families, sowing the seeds of hope and renewal in their lives.**

## Your contribution can help save and restore lives! Donate now.

**About SEEDS:** SEEDS (Sustainable Environment and Ecological Development Society) is a not-for-profit organisation that enables community resilience through practical solutions in the areas of disaster readiness, response and rehabilitation. Since 1994, the organisation has worked extensively on every major disaster in the Indian subcontinent – grafting innovative technology on to traditional wisdom. SEEDS is also India's first agency to be certified for the Global Core Humanitarian Standards – an international certification system for quality and accountability in humanitarian response.
