Ashray-India Flood Response 2020 in times of Covid-19

SEEDS stands with Assam & Bihar

www.seedsindia.org

Over 30 million people have been affected due to floods in India this year. This time affected communities are facing threat over and above the ongoing COVID crisis and are in desperate need for support.

The states of Assam and Bihar have experienced the worst flooding over the last ten years affecting over 10.5 million people and claiming more than 80 lives.

SEEDS is promptly reaching out to affected families in Assam and Bihar with safe drinking water, dry food, and hygiene kits including key items required for COVID safety, as the most urgent needs based on the information from SEEDS volunteers on ground.

With extensive damage to houses, affected families need to start rebuilding from day one, in order to have a roof above their heads. This is critical given the continued rains in these areas. Immediate support for repairing homes and getting basic home utilities are thus the next priorities that we are helping impacted families with.

SEEDS is reaching out to 100,000 affected people in Assam and another 20,000 in Bihar with their immediate needs for water, health and hygiene in the districts of Golaghat, Lakhimpur, Dhemaji, Barpeta and Morigaon in Assam and district Saharsa in Bihar.

You can help us reach out to those most in need. Lend a hand!

Ration Kit

for a family of 5 consisting of a wheat flour, rice, pulses, oil, spices, salt, soybean, sugar, tea leaf and milk powder

Rs. 1,000
